Overview

Reliable Electrical Connectivity

The E003/E003F series is a robust plug and socket solution engineered for consistent power transmission and distribution. Constructed with high-quality ABS housing and durable copper components, these connectors are designed to ensure secure mating and long-term operational reliability. They are suitable for a wide range of electrical applications requiring stable performance under standard power conditions.

Technical Specifications

Rated Current

16 A

Rated Current

Rated Voltage	250V~
Frequency	50/60Hz
Pin Diameter	4.8 mm

Materials and Design

Available Colors

Black • White

Housing Material	ABS
Contact Material	Copper
