

# E14 Base LED Smart Bulb

This LED smart bulb offers energy-efficient lighting with a focus on modern design and functionality. Designed for long-lasting performance, this LED bulb reduces energy consumption while delivering consistent light output.

## Overview

### Smart Lighting Solution

This G45 smart LED bulb offers versatile lighting control, featuring a wide color temperature range from warm 2700K to cool 6500K, plus full RGB capabilities. Designed for modern smart homes, it integrates seamlessly with Tuya Wi-Fi ecosystems. The compact G45 form factor and standard base options make it an ideal energy-efficient upgrade for various residential and commercial fixtures.
