

E6TC Ignition Spark Plug

The E6TC spark plug is engineered for reliable ignition in motors and engines. Its design ensures efficient combustion, contributing to improved fuel economy and reduced emissions.

Overview

High-Performance Ignition Solution

The E6TC Ignition Spark Plug is engineered for optimal combustion efficiency in various motor and engine applications. Featuring advanced materials like platinum-gold construction, it offers superior thermostability and anti-corrosion properties for an extended service life. Designed to facilitate easier engine starts and consistent performance, this spark plug helps improve fuel economy and reduce emissions.

Technical Specifications

Model	E6TC
Executive Standard	GB7825-8
Key Features	Thermostable, Anti-corrosive, Platinum-gold

Compatibility & Versatility

Compatibility

- NGK compatible models
- DENSO compatible models
- CHAMPION compatible models
- BOSCH compatible models

Available Variations

Iridium-platinum • Multi-ground electrode • V-cut center-electrode • Surface-sparking • Nickel copper • V-groove center-electrode
