

Edison Style LED Filament String Light

This LED filament string light features Edison-style bulbs suspended from a durable cable. Designed for both indoor and outdoor use, the string lights provide a warm ambient glow.

Product Overview

Vintage Aesthetic Meets Modern Durability

This Edison-style LED filament string light combines a classic vintage look with modern energy efficiency and durability. Featuring 12 shatterproof acrylic bulbs, this 24-foot string is designed for both indoor and outdoor environments. With an IP44 weather resistance rating and a convenient control box, it offers a reliable lighting solution for patios, events, and gardens.
