

Electric Angle Grinder

This versatile power tool is designed for metal grinding, cutting, and surface preparation, as well as stone and wood cutting. It features a powerful 850W motor and a no-load speed of 11000RPM.

Overview

Versatile Power Performance

This electric angle grinder is engineered for high-performance versatility, capable of handling metal grinding, metal cutting, stone cutting, wood cutting, and wall slotting. With a robust 850W motor and a consistent no-load speed of 11,000 RPM, it provides the necessary power for demanding professional and DIY tasks. The tool is compatible with multiple grinder diameters (100/115/125mm) and supports a wide voltage range, ensuring flexibility across various work environments.

Technical Specifications

Compatible Grinder Diameters

- 100
- 115
- 125

Rated Power	850 W
No Load Speed	11000 rpm
Voltage Range	100-230V~
Spindle Diameter	M14

Applications

Supported Applications Metal Grinding, Metal Cutting, Stone Cutting, Wood Cutting, Wall Slotting
