

Electric Cargo and Passenger Tricycle

This electric tricycle is designed for cargo and passenger transport. It features a step-through frame, front and rear lighting, and a rear cargo bed with safety rails, providing an eco-friendly transportation solution.

Overview

Versatile Electric Transport Solution

This electric tricycle is engineered for both cargo logistics and passenger transport, offering a highly adaptable solution for urban mobility. It features a user-friendly step-through frame design for easy mounting and dismounting, paired with a sturdy, durable build for consistent reliability. With integrated lighting and safety rails for the rear cargo bed, it ensures both operational safety and passenger comfort.

Design & Features

Frame Design	Step-through frame
Safety Features	Front lighting, Rear lighting, Safety rails

Utility

Primary Applications

Cargo Transport • Passenger Transport

Passenger Amenities

- Integrated seat
- Backrest

Power & Performance

Power Source	Electric Motor
Sustainability	Yes
