Product Overview

Built for Demanding Tasks

This electric cargo tricycle combines a powerful 1000W differential motor with a robust steel-frame construction to deliver reliable hauling capabilities. Engineered for performance, it features superior climbing ability and an efficient 60V power system, making it suitable for both commercial and personal use in various terrains. With its high-capacity cargo bed and focus on stability, this vehicle provides a dependable, eco-friendly solution for heavy-duty goods transport.

Performance

Motor Power	1000 W
Grade Ability	25%-28%
Maximum Speed	25 km/h
Range per Charge	60 km

Technical Specifications

Efficient packing and shipping preparation for global delivery.

Overall Dimensions	2960 x 1175 x 1350 mm
Cargo Box Size	1500 x 1100 x 330 mm
Curb Weight	220 kg
Loading Capacity	300 kg

Electrical System

Battery System	60V 45Ah
Charging Time	6-8 hours
Controller	60V 45A 24-tube

Components

Tire Specifications	<ul style="list-style-type: none">• Front: 3.5-12• Rear: 3.75-12
Braking System	Front Drum Brake, Rear Drum Brake
