Product Overview

Professional Precision Sharpening

This electric chain sharpener is engineered for the precise and efficient maintenance of chainsaw chains. Featuring a robust construction with a cast metal base, it provides the stability required for consistent sharpening results. The unit includes adjustable angles and depths, allowing it to accommodate a wide variety of chain types and sizes for versatile performance.

Technical Specifications

Adjustable Settings

- Grinding Angle
- Sharpening Depth

Power Source	Electric Motor
Base Material	Cast Metal
Safety Features	Protective Housing, Clear Safety Shield, Spark Deflection

Installation & Usability

Mounting	Benchtop installation with pre-drilled mounting holes
Chain Tensioning	Yes
