

Electric Citrus Juicer with Stainless Steel Body

This electric citrus juicer efficiently extracts juice from various citrus fruits. It features a durable stainless steel body, a universal juicing cone, and a drip-stop mechanism.

Overview

Professional Citrus Extraction

The GS-401 is a specialized kitchen appliance designed for efficiently extracting juice from oranges, lemons, limes, and grapefruits. Built with a durable stainless steel body and a powerful motor, this unit ensures reliable, long-term performance in demanding environments. Its thoughtful design includes automatic pressure-activated operation and a drip-stop spout to maintain a clean workspace.
