Overview

Modern Urban Commuter

This electric scooter is engineered for efficient and stylish urban transportation, combining a vintage-inspired aesthetic with modern electric performance. Featuring a powerful 1500W brushless motor and a dual lithium-ion battery system, it delivers reliable acceleration and a range of over 100 km on a single charge. Designed with safety and rider comfort in mind, it includes hydraulic suspension, responsive dual disc brakes, and tubeless tires for a smooth, stable ride.
