

Electric Convection Space Heater with Adjustable Thermostat

This electric convector heater offers two heating power settings: 750W and 1500W. It includes stainless steel carry handles, adjustable thermostat, safety thermal cut-off, tip-over switch, and a power indicator light.

Product Overview

Efficient Convection Heating

This electric convection space heater provides reliable and efficient warming for any indoor environment. Equipped with dual heating settings and an adjustable thermostat, it allows for precise temperature control to suit your comfort needs. Safety is prioritized with integrated features including a thermal cut-off switch and a tip-over safety mechanism, ensuring peace of mind during operation.
