Product Overview

Efficient Cooling Solutions

This collection of electric fans offers versatile cooling options for both residential and commercial environments. Featuring designs ranging from adjustable stand fans to ceiling-mounted units, these models prioritize effective air circulation and user safety. Built with durable materials like protective metal grills and high-quality plastic blades, they provide reliable performance for indoor ventilation needs.

Design and Build

Safety Features

- Protective metal wire grill
- Closely spaced wires
- Stable round base

Number of Blades

3

Materials Used

Metal, Plastic, Chrome

Performance

Operation Modes

Oscillating • Adjustable Speed • Adjustable Height

Primary Application

Indoor ventilation and personal cooling
