Product Overview

High-Efficiency Corn Processing

This electric corn thresher is engineered for rapid and reliable kernel separation, achieving shelling rates exceeding 95%. Designed for ease of use, it allows for single-operator efficiency while maintaining low vibration during operation. Its lightweight and portable design makes it an ideal solution for small to medium-scale agricultural needs.

Performance & Operation

Key Operational Benefits

- Safe full-load operation
- Low vibration design
- Easy to move and transport
- Simple single-person operation

Shelling Rate	95 %
Power Source	Electric Motor, Diesel Engine Compatible, Gasoline Engine Compatible

Commercial Terms

Shipping & Delivery

Term	Details
Delivery Time	5-10 days after payment
Incoterms	FOB, CFR, CIF, EXW, FCA
Packaging	Carton, wooden, or plywood box
Warranty	1 Year
Minimum Order Quantity	1 pc
