

Electric Diesel Fuel Pump for Construction Machinery

This electric diesel pump solves the problem of short motor service life in diesel applications, with a lifetime of up to 10,000 hours. It addresses cold start problems for diesel engines and eliminates the need for manual exhaust.

Product Overview

High-Performance Diesel Fuel Pump

This electric diesel fuel pump is engineered specifically for heavy-duty construction machinery, including excavators. It is built with robust, precision-machined metal components to ensure reliable operation in demanding work environments. The unit features an integrated electrical connector for streamlined installation and is designed to maintain consistent fuel flow and pressure for optimal engine performance.

Technical Specifications

Installation

Integrated Electrical Connector

Compatible Part Numbers

KS114, 371-3599, 190-8790

Primary Application

Construction Machinery / Excavators

Construction

Precision-machined metal
