Product Overview

Pigtail top design allows for easy wire installation and removal for various wire types.

Durable Electric Fence Pigtail Post

This electric fence pigtail post is designed for efficient livestock containment and crop protection in agricultural settings. Constructed from high-quality, UV-resistant plastic with a durable steel spike, it offers reliable insulation and long-lasting performance in various weather conditions. Its lightweight design and pigtail loop allow for easy wire installation, quick setup, and versatile configuration for both temporary and permanent fencing needs.
