

Electric Fireplace with Simulated Flame

These electric fireplaces use wire heating elements to generate heat. They feature adjustable temperature and flame settings, remote control, and a double thermal cut-off device for safety.

Product Overview

Electric Fireplace Series

This series of electric fireplaces provides a versatile solution for indoor heating, featuring realistic coal or log flame effects. Equipped with advanced wire heating elements, these units offer adjustable thermostat settings and remote control functionality for user convenience. Safety is prioritized through the inclusion of a double thermal cut-off device, making these units reliable for residential or commercial heating needs.

Technical Specifications

Power Performance

1850 W

Max Power (220-240V)

1500 W

Max Power (100-130V)

Heating Element Type

Wire heating

Voltage & Frequency

220-240V, 50/60Hz, 100-130V, 50/60Hz

Model Comparison

Model Specifications

Model	Flame Effect	Net Weight	Gross Weight
ND-18F	Coal	17.10 Kg	20.30 Kg
ND-18A	Log	19.50 Kg	22.50 Kg
ND-18	Log	19.50 Kg	22.50 Kg

Features & Safety

Safety & Control

- Double thermal cut-off device
- Adjustable thermostat
- Fire adjustment settings
- Remote control included
