

Electric Fruit and Vegetable Juicer with Pulp Container

This electric juicer efficiently extracts juice from fruits and vegetables. It features a transparent feeding tube, a stainless steel handle, a pulp container, and a juice collector.

Product Overview

Efficient Extraction System

This electric juicer is engineered for high-efficiency juice extraction from a wide variety of fruits and vegetables. Featuring a sleek, professional design with a durable silver base and an intuitive red power switch, it is built to streamline kitchen operations. The unit includes a transparent feeding tube for easy monitoring, a robust stainless steel handle, and integrated collection containers for both juice and pulp.
