

Electric Fuel Pump for CITROEN and PEUGEOT

This electric fuel pump ensures reliable fuel delivery to the engine, optimizing performance and fuel efficiency. It is engineered to meet or exceed OEM specifications, providing a direct fit replacement for easy installation.

Product Overview

High-Performance Fuel Delivery

This electric fuel pump is engineered to provide consistent and reliable fuel delivery to the engine, optimizing overall vehicle performance and fuel efficiency. Precisely manufactured and rigorously tested, it meets high-quality standards for durability under various operating conditions. Designed as a direct-fit replacement, it ensures a seamless installation process for CITROEN and PEUGEOT vehicles.

Performance Metrics

Operating Pressure

3 Bar

Pressure

Flow Rate

100 L/h

Flow

Compatibility

Cross Reference

- GSS370
- GSS465

Compatible Vehicles

CITROEN, PEUGEOT

Quality & Standards

Certifications

TUV • ISO/TS 16949:2002 • CE

Testing Protocol

100% tested
