

Electric Fuel Pump for FIAT LANCIA CITROEN

This electric fuel pump ensures consistent fuel delivery, enhancing engine performance and reliability. It is designed as a direct replacement to meet or exceed OEM specifications for FIAT, LANCIA, and CITROEN vehicles.

Product Overview

High-Performance Fuel Delivery

This electric fuel pump is precision-manufactured and rigorously tested to ensure reliable performance and consistent fuel delivery. Designed as a direct-fit replacement, it helps maintain optimal fuel pressure and flow for enhanced engine reliability. Its durable construction is engineered to withstand various operating conditions, making it an ideal choice for maintaining vehicle fuel systems.

Performance Metrics

Operating Pressure

1 Bar

Pressure

Flow Rate

110 L/h

Flow Rate

Compatibility

Compatible Makes

FIAT, LANCIA, CITROEN

Manufacturing Standards

Quality Certifications

TUV • ISO/TS 16949:2002 • CE

Production Capabilities

Assembly Lines

Line Type	Count
Pump Assembly	14
Module Assembly	4

Daily Production Output

18000 pcs/day
