

Electric Fuel Pump Module for Chevy, Oldsmobile, Pontiac

This electric fuel pump module is a complete fuel delivery unit designed for specific Chevy, Oldsmobile, and Pontiac vehicles. It integrates the fuel pump, fuel level sensor, and fuel filter into a single, easy-to-install module.

Overview

High-Performance Fuel Delivery

This electric fuel pump module is a complete, precision-engineered unit designed to ensure consistent fuel pressure and flow for optimal engine performance. Each unit undergoes rigorous testing to guarantee reliability and long service life, meeting or exceeding OEM specifications for seamless installation. It integrates the fuel pump, level sensor, and filtration components into a single, robust assembly.

Technical Specifications

Operating Pressure

3 Bar

Pressure

Flow Rate

100 L/h

Flow

Compatibility

Compatible Makes	CHEVY, OLDSMOBILE, PONTIAC
Cross Reference	AIRTEX: E3507M
Part Number	EFM0940716

Quality & Standards

Certifications

TUV • ISO/TS 16949:2002 • CE

Testing Compliance

- 100% Tested
- Performance Test
- Environmental Test
- Durability Test
