

Electric Fuel Pump Module for Chrysler Dodge Plymouth

This electric fuel pump module is designed for efficient fuel delivery. It features robust construction for durability and reliable operation.

Product Overview

High-Performance Fuel Delivery

This electric fuel pump module is engineered to meet or exceed OEM specifications for fit, form, and function, ensuring reliable operation and efficient fuel delivery. Each unit is precisely manufactured and undergoes rigorous 100% testing to guarantee quality and durability. Designed to replace worn or malfunctioning components, this module includes an integrated fuel strainer for filtering contaminants and maintaining clean fuel flow.
