

Electric Garden Water Pump for Irrigation

This electric garden pump is designed for efficient water transfer and irrigation. It features durable construction, a powerful motor, and user-friendly controls suitable for watering gardens, lawns, and agricultural fields.

Product Overview

Reliable Irrigation Solution

This electric garden water pump is engineered for durability and stability, making it an ideal choice for daily irrigation tasks. Featuring a robust plastic shell and a high-quality copper motor, it is built to withstand outdoor environments while resisting corrosion. Its efficient design ensures consistent performance for watering gardens, lawns, and agricultural fields.

Technical Specifications

Motor Material	Copper
Housing Material	Plastic
Corrosion Resistance	Yes

Key Features

Durability Profile

Corrosion-Resistant • Stable Construction • Copper Motor

Suitable Applications	Garden Irrigation, Lawn Watering, Agricultural Fields, Daily Use
