

Electric Glass Kettle with Infuser

This electric kettle automatically shuts off when the water boils. It features a concealed stainless steel heating element and a one-button cover starter.

Product Overview

Premium Glass Kettle with Integrated Infuser

This electric kettle combines durability with modern aesthetics, featuring a high-quality borosilicate glass body that is both stain-resistant and easy to clean. Designed for convenience, it includes a 360-degree rotary base and an automatic one-button lid release. With advanced safety features like boil-dry protection and auto-shutoff, this appliance is a reliable choice for professional environments.
