

Electric Herbal Tea and TCM Brewing Pot

This electric health pot is designed for brewing traditional Chinese medicine and herbal teas. It features a ceramic body with multiple temperature settings for various functions.

Product Overview

Traditional Brewing, Modern Convenience

This electric health pot is specifically designed for the precise brewing of traditional Chinese medicine and herbal teas. Combining a classic ceramic aesthetic with modern heating technology, it offers automatic decoction and adjustable heat levels. It is the perfect solution for users seeking to maintain traditional preparation methods with the ease of automated time and temperature control.
