

# Electric High-Pressure Washer

This high-pressure washer delivers a maximum pressure of 870 PSI (6.0 MPa) and a flow rate of 10 liters per minute. It operates on a 220V power supply with a power consumption of 2.0 kW.

## Product Overview

### Professional Electric High-Pressure Washer

This high-performance electric pressure washer is engineered to deliver reliable cleaning power for demanding environments. With a maximum pressure capacity of 870 PSI (6.0 MPa) and a consistent flow rate of 10 liters per minute, it efficiently handles various cleaning tasks. Designed with safety and durability in mind, it features an integrated electric leakage protection switch to ensure secure operation during professional use.

## Technical Specifications

### Maximum Pressure

**870 PSI**  
Max Pressure

**6 MPa**  
Max Pressure

### Flow Rate

10 L/min

## Power Requirements

### Power Configuration

- Voltage: 220V
- Power Consumption: 2.0 kW

## Operational Details

### Nozzle Specification

050

## Safety Features

### Safety Equipment

Electric Leakage Protection Switch, Warning Labels Included
