

Electric Jig Saw for Wood and Metal

This electric jig saw is a versatile power tool used for making precise cuts in various materials. It features an adjustable base for bevel cuts and an integrated dust blower to maintain a clear cutting line.

Product Overview

Versatile Electric Jig Saw

This electric jig saw is a versatile power tool engineered for precision cutting across a variety of materials, including wood and steel. Designed for hand-held operation, it features an ergonomic build suitable for both professional and DIY applications. With adjustable gear control and a robust motor, it offers the adaptability needed for diverse project requirements.

Technical Specifications

Motor Power

450 W

Input Power

Voltage Compatibility

120V/60Hz, 230V/50Hz

Performance

No-Load Speed

3000 r/min

Gear Adjustment

6 gears

Cutting Capacity

Max Cutting Depth

Material	Depth
Wood	55mm
Steel	3mm

Design and Operation

Operation Mode

Hand held
