

Electric Kettle and Tea Infuser Set

This electric kettle and tea infuser set is designed for convenient and efficient tea preparation. The set includes an electric kettle with a rapid boiling function and a glass tea infuser pot that sits on a warming base.

Product Overview

Modern Tea & Kettle Solution

This Electric Kettle and Tea Infuser Set combines a European-inspired aesthetic with practical functionality for daily use. Featuring a durable, food-grade plastic body and a transparent glass tea pot with a stainless steel mesh infuser, it is designed for both boiling water and brewing tea. The system includes a versatile warming base with thermostatic control to keep beverages at the perfect temperature.
