

Electric Kettle and Tea Maker Set

This electric kettle and tea maker set features a stainless steel kettle and a glass teapot, both resting on a shared black base. The kettle has a black handle and lid, while the teapot includes a removable infuser for brewing loose leaf tea.

Product Overview

Dual-Function Tea and Kettle System

This integrated electric kettle and tea maker set offers a streamlined solution for professional and home environments. The system includes a durable stainless steel kettle and a glass teapot, both supported by a unified heating base. Designed for convenience, the teapot features a removable infuser, making it ideal for preparing loose-leaf tea while simultaneously boiling water.
