

Electric Kettle with Stainless Steel Body

This electric kettle features a stainless steel body with black plastic accents. It is designed for quickly boiling water for tea, coffee, or other hot beverages.

Product Overview

Design and Efficiency

This modern electric kettle features a durable stainless steel body designed for longevity and easy maintenance. With its ergonomic handle and convenient push-button lid release, it offers a seamless user experience for professional environments. The stylish contrast between the steel and heat-resistant black plastic accents makes it an ideal addition to any office kitchen or breakroom.
