

Electric Log Cutting Saw

This log cutting saw is designed for efficient wood processing. It features a circular saw blade enclosed within a safety guard, a powerful electric motor, and a sturdy frame with integrated wheels.

Product Overview

Professional Electric Log Saw

Designed for efficient and reliable firewood processing, this electric log cutting saw is built for demanding B2B environments. It features a robust circular saw blade protected by a safety guard and a high-performance electric motor capable of handling consistent workloads. With a sturdy frame and integrated wheels, it offers both stability during operation and ease of mobility around the workspace.

Technical Specifications

Motor Power	4000 W
Voltage	400 V

Performance

Max Cutting Diameter

24 mm

Max Cutting Diameter

Primary Application	Firewood Processing, Log Cutting
