

# Electric Meat Grinder with Stainless Steel Construction

The electric meat grinder is a versatile appliance for grinding various types of meat. Its durable stainless steel construction ensures hygiene and longevity.

## Product Overview

### Professional Grade Meat Processing

This electric meat grinder is a versatile and robust kitchen appliance engineered for consistent performance in demanding environments. Constructed from durable stainless steel, it ensures high standards of hygiene and long-term reliability. The unit is designed for ease of use, featuring a large feeding tray for efficient processing and simple assembly for quick cleaning.

## Technical Specifications

### Control Interface

- ON (Power On)
- O (Off)
- R (Reverse)

Material Construction	Stainless Steel
Safety Features	Overload Protection

## Performance

### Key Performance Features

High-Efficiency Feeding Tray • Multiple Cutting Plates • Powerful Motor
