

Electric Motor Centrifugal Pump Set

This self-priming centrifugal pump is coupled with an electric motor for efficient fluid transfer. It features a robust construction with a cast iron pump housing and impeller, ensuring durability and resistance to wear.

Product Overview

Reliable Fluid Transfer Solution

This self-priming centrifugal pump is coupled with a high-performance electric motor, engineered for efficient and consistent fluid transfer. Built with a robust cast iron housing and impeller, it offers exceptional durability and resistance to wear, making it suitable for demanding industrial environments. Designed for ease of use, the unit features accessible components for simplified maintenance and reliable continuous operation.

Key Features

Common Applications

Irrigation, Water Supply, Industrial Processing

Construction

Materials

- Cast Iron Pump Housing
- Cast Iron Impeller

Maintenance Design

Easy Access Components • Service-Friendly
