Product Overview

Professional Grade Induction Cooking

This multi-function electric rice cooker utilizes advanced IH (Induction Heating) technology to ensure consistent, even heat distribution for superior cooking results. Designed for high-performance kitchen environments, it features a durable tin-plate housing and a robust 2.0mm hard oxygen ceramic inner pot. With its intuitive digital LED interface and 24-hour scheduling capabilities, it offers unmatched versatility and convenience for professional food preparation.

Technical Specifications

Heating Mode	IH (Induction Heating)
Control System	IMD Control
Housing Material	Tin-plate
Inner Pot Thickness	2 mm
Inner Pot Material	Hard oxygen ceramic

Features

Included Accessories

- Spatula
- Soup spoon
- Measuring cup
- PP steamer

Smart Features	24H Delay Start, Auto 24H Keep Warm, Detachable Lid, Multi-function
Display Interface	4-digit LED display
