

Electric Power Drill 300W

This electric power drill is designed for drilling into various materials. It features a 300W rated input power and supports a dual voltage of 110/220V at a frequency of 60/50Hz.

Product Overview

Professional Power Drill

This 300W electric power drill is engineered for precision and versatility in various drilling applications. Featuring a robust no-load speed of 4500r/min, it provides consistent performance for both steel and wood materials. Designed for international compatibility, it supports dual voltage options to suit diverse operational environments.

Technical Specifications

Rated Input Power	300 W
No-Load Speed	4500 r/min
Input Voltage	110V, 220V
Frequency	50Hz, 60Hz

Performance Capabilities

Drilling Capacity

Material	Max Diameter
Steel	6.5mm
Wood	9.0mm
