

Electric Rechargeable Toothbrush with Digital Display

This electric toothbrush is rechargeable and comes with a digital display. It is designed to improve oral hygiene and dental care.

Product Overview

Advanced Oral Care Solution

This electric rechargeable toothbrush features a powerful acoustic motor capable of 35,000 vibrations per minute for superior cleaning efficiency. It includes four distinct brushing modes—clean, white, sensitive, and massage—to cater to diverse dental care needs. With convenient features like a digital display for battery status, wireless induction charging, and a travel lock, this device is designed for both performance and user convenience.
