

Electric Sandwich Press with Non-Stick Plates

This sandwich maker is designed for the quick and easy preparation of toasted sandwiches. It features a non-stick cooking surface for easy cleaning and even heat distribution.

Product Overview

Efficient 2-Slice Toaster

This compact sandwich maker is designed to deliver perfectly toasted sandwiches with minimal effort. It features non-stick coated plates for easy cleaning and a robust bakelite housing for long-lasting use. With its thermostatically controlled heating system and integrated safety features, it provides a reliable solution for fast-paced food preparation environments.

Technical Specifications

Power Consumption

800 W

Maximum Power

Operating Voltage

220-240V ~ 50/60Hz

Features

Key Capabilities

Non-stick coating, Thermostatic control, Locking handle, Anti-skid feet, Indicator lights

Construction

Build Materials

- Bakelite housing
- Bakelite handle
- Non-stick coated plates
