

Electric Shoe Dryer for Moisture Removal

This electric shoe dryer efficiently removes moisture and odors from footwear. It utilizes a heating element and perforated housing to provide optimal air circulation, making it suitable for various shoe types.

Product Overview

Efficient Moisture and Odor Control

This electric shoe dryer is engineered to effectively remove moisture and eliminate unpleasant odors from a variety of footwear. Its compact and portable design makes it a versatile solution for home use after sports, outdoor activities, or in humid environments. The system utilizes gentle, consistent heat combined with a perforated housing for optimal air circulation, ensuring your shoes dry safely without material damage.

Technical Specifications

Key Features

- Compact and portable design
- Integrated heating element
- Perforated housing for airflow
- Gentle drying technology

Power Source	Standard AC power
Compatible Footwear	Sneakers, Boots, Dress shoes
