

# Electric Space Heater with Quartz Heating Elements

This electric space heater is designed for indoor use and provides supplemental heating to small spaces. It features quartz or halogen heating elements that emit a red glow when active and has a control knob for adjusting the heat settings.

## Product Overview

### Efficient Supplemental Heating

This electric space heater utilizes high-performance quartz heating elements to provide rapid, targeted warmth for small indoor areas. Featuring a robust design with a protective metal grill, it ensures both safety and durability for daily use. The integrated control knob allows for precise heat adjustment, making it a reliable solution for maintaining a comfortable environment.

## Technical Specifications

### Key Features

- Protective metal safety grill
- Adjustable heat settings
- Durable housing construction
- Visible glow heating indicators

Heating Technology	Quartz elements
Application Environment	Indoor Use, Small Spaces
Housing Material	Gray plastic housing
