

Electric Step-Through City Bicycle with 7-Speed Hub

This electric step-through bicycle is designed for comfortable and convenient riding. It features a low step-over frame for easy mounting and dismounting, making it ideal for riders of all ages and abilities.

Overview

Electric Step-Through City Bicycle

This electric step-through city bicycle is designed for maximum comfort and convenience, featuring a low step-over frame that allows for effortless mounting and dismounting. Equipped with a reliable 24V front hub motor and a lithium-ion battery system, it provides pedal assistance to help riders tackle hills and longer distances with ease. The bike includes practical features like a rear rack for cargo, full fenders, and an upright riding position, making it an ideal solution for daily commuting and urban travel.
