

Electric Surface Polisher

This electric polisher is designed for polishing applications on various surfaces. It features a powerful motor for efficient material removal and variable speed control.

Product Overview

Professional Surface Polisher

The Z1B-ZP2-180 is a robust electric polisher engineered for high-performance surface finishing. It features a powerful motor designed for efficient material removal and includes variable speed control, allowing users to adapt seamlessly to different surfaces and polishing compounds. With an ergonomic design focused on operator comfort, this tool is ideal for extended use in automotive detailing, metal polishing, and various professional finishing tasks.

Technical Specifications

Model Number	Z1B-ZP2-180
Speed Control	Variable speed control

Compatibility

Compatible Accessories

- Standard polishing pads
- Polishing bonnets

Design Features

Design Highlights	Ergonomic Handle, Durable Construction, Variable Speed
-------------------	--

Applications

Primary Applications

Automotive Detailing • Metal Polishing • Surface Finishing
