

Electric Trailer Jack with LED Light

This electric trailer jack is designed for lifting and lowering trailers with ease. It features a built-in LED light and manual override.

Product Overview

Efficient Trailer Lifting Solution

This electric trailer jack is engineered for the seamless lifting and lowering of trailers, making the hitching and unhitching process significantly easier. Built with heavy-duty construction and a powerful motor, it ensures reliable performance for various applications. The inclusion of a built-in LED light provides essential visibility for nighttime operations, while a manual override feature offers peace of mind in the event of a power failure.

Key Features

Core Functionalities

- Electric power operation
- Built-in LED work light
- Heavy-duty durable construction
