

Electric Water Transfer Pump

This high-performance water pump is designed for various applications. It features durable construction with a stainless steel pump housing and a robust electric motor.

Product Overview

High-Performance Water Transfer Solution

This electric water transfer pump is engineered for durability and consistent performance in demanding environments. Featuring a robust stainless steel housing and a high-efficiency electric motor, it is the ideal choice for clean water transfer, agricultural irrigation, and pressure boosting systems. Designed for reliability, this unit ensures seamless fluid handling and long-term operational excellence for professional applications.

Technical Specifications

Housing Material	Stainless steel
Suitable Applications	Clean water transfer, Irrigation, Pressure boosting
Motor	Robust electric motor

Key Features

Performance Metrics

High Efficiency • Reliable Design • Corrosion Resistant
