

Electric Water Transfer Pump

This water pump is designed for efficient water transfer and circulation. It features a durable construction and a powerful electric motor, making it suitable for various applications, including irrigation and drainage.

Product Overview

High-Efficiency Water Transfer Solution

This robust electric water transfer pump is engineered for consistent performance in demanding environments. Featuring a powerful motor and durable construction, it provides reliable fluid circulation and drainage capabilities for residential and commercial irrigation systems. Its compact design ensures easy installation while maintaining the high output required for professional pumping tasks.

Technical Specifications

Key Features

- Compact form factor
- Durable heavy-duty construction
- Suitable for residential and commercial use
- High-efficiency motor

Motor Type	Electric
Common Applications	Irrigation, Drainage, Water Transfer, Circulation
