

Electric Winch with Remote Control

This electric winch features a yellow body, steel cable, and remote control for convenient operation. It is designed for lifting and pulling applications in industrial and manufacturing settings.

Product Overview

Industrial Electric Winch

This high-performance electric winch is engineered for reliable lifting and pulling operations in demanding industrial and manufacturing environments. Featuring a robust yellow housing and durable steel cable, it combines heavy-duty construction with a compact footprint for versatile installation. The included remote control ensures precise operation, enhancing safety and efficiency for professional material handling tasks.

Technical Specifications

Control Method	Remote Control
Cable Material	Steel
Design Features	Compact Design, Heavy-duty Hook, Industrial Grade

Applications

Primary Applications

- Industrial Lifting
- Manufacturing Pulling
- Material Handling
