

Electrical Switch and Socket Set

This collection includes single, double, and multiple gang switches, along with various power socket configurations. These are manufactured to meet international standards and are suitable for flush mounting in standard electrical boxes.

Product Overview

Modern Electrical Solutions

This comprehensive collection of electrical switches and sockets is engineered for both residential and commercial applications. Featuring a sleek, minimalist design, the range provides reliable control for lighting, power outlets, and specialized electrical devices. Built with high-quality PC panel materials and pure brass contacts, these components ensure long-term durability and safety for any modern interior.

Technical Specifications

Rated Voltage	250 V AC
Switch Current Rating	16 AX
Socket Current Rating	13 A
Mechanical Lifetime	40000 operations

Materials & Construction

Materials Used	PC Panel, Pure Brass Contacts
Installation	Flush mounting in standard electrical boxes

Product Range

Available Configurations

Type	Details
Switch Types	1G to 6G, 1-Way/2-Way, Dimmer, Bell, Fan
Socket Types	Universal, USB Charging (up to 6 USB ports), TV/SAT

USB Charging

USB Charging Output

5 V
Voltage

2.1 A
Current
