

Emergency Glow-in-the-Dark Lamp Cover

This plastic tube cover provides illumination in dark or emergency situations. Its easy installation involves fixing the light sleeve onto the lamp socket.

Product Overview

Emergency Glow-in-the-Dark Lamp Cover

This emergency glow-in-the-dark plastic tube cover is an essential safety solution for illumination systems, providing critical visibility during power outages or low-light conditions. Designed for easy installation, the sleeve fixes directly onto the lamp socket, ensuring a secure fit. It is compatible with various standard lamp sizes, making it a versatile choice for emergency lighting applications and safety signage.

Installation

Easy installation; the light sleeve is fixed back to the lamp-socket.
