

Energy Efficient CFL Light Bulb

This compact fluorescent light bulb is an energy-efficient alternative to incandescent bulbs, using significantly less energy. The CFL features a spiral shape and a standard screw base for easy installation.

Product Overview

Energy-Efficient Illumination

This compact fluorescent light bulb is engineered as an energy-efficient alternative to traditional incandescent lamps. Featuring a distinct spiral design, it offers longevity and significantly reduced energy consumption for professional lighting requirements. Its standard screw base ensures compatibility with a wide range of common lighting fixtures, providing reliable and bright illumination.

Technical Specifications

Light Source Type	Compact Fluorescent Lamp (CFL)
Design	Spiral
Base Type	Standard Screw Base
Light Characteristics	Bright, White Light

Performance Benefits

Core Advantages

- High energy efficiency compared to incandescent bulbs
- Extended operational lifespan
- Universal compatibility with standard screw sockets
