Product Overview

High-Performance Engine Component

This engine cylinder head is specifically engineered for the Toyota 1HZ engine platform. Designed with precision machining and durable materials, it ensures optimal sealing and efficient combustion within the engine block. It features carefully crafted valve ports and coolant passages to maintain reliable engine performance under varying operational conditions.

Technical Specifications

Engine Compatibility	Toyota 1HZ
HS Code	848410

Ordering & Logistics

Shipping Options

Vessel • Air

Minimum Order Quantity	10 pcs
Packaging Details	1 PC per wooden box (Neutral Packing)
Accepted Payment Terms	T/T, L/C
