Product Overview

Comprehensive Engine Overhaul Solution

This engine cylinder liner and piston kit is engineered to provide a comprehensive solution for engine maintenance and repair. Designed to withstand high temperatures and pressures, the components ensure optimal performance, efficient combustion, and reduced wear within the engine cylinder. Precision-machined for a perfect fit, these parts are suitable for a wide range of automotive, heavy vehicle, construction, and agricultural applications.

Technical Specifications

Included Components

- Cylinder liner
- Piston
- Piston pin
- Valve set
- Engine bearing set
- Head gasket
- Main bearings
- Rod bearings

Application Types

Automobiles • Heavy Vehicles • Construction Machinery • Agricultural Vehicles

Export Markets

- Southeast Asia
- Middle East
- South America

Compatibility Regions

American, Japanese, Korean
