Product Overview

High-Performance Filtration

This fuel filter is engineered for heavy-duty commercial vehicles, including buses, trucks, and construction machinery. It provides superior filtration efficiency to remove contaminants and impurities, ensuring optimal engine performance and extended service life. Designed for reliability, this component is an essential part of routine engine maintenance.

Identification

Model Number	1117N-010
--------------	-----------

Compatibility

Suitable Applications	Bus, Truck, Bulldozer, Excavator, Generator, Tractor, Marine Engine, Construction Machinery
-----------------------	---

Installation & Maintenance

Installation Steps

- Fill the filter with clean oil before installation
- Ensure proper seating of the seal
- Tighten the filter by 3/4 of a turn after initial contact

Logistics

Quantity per Unit	1 pc
-------------------	------

Support

Technical Support	0719-8885555 (24-hour service)
